HOUSE-TUG

Made in U.S.A.

**Powder coated Yellow is standard
Optional colors available at extra charge*

The CSI House-Tug has a rugged design specifically for installing manufactured buildings. We use a state-of-the-art track system to allow maneuvering in tight places, soggy soils, and rough terrains. Pulling heavy loads created by modern manufactured homes is no problem for the fully hydrostatic drive and the diesel powered engine. The House-Tug will move the heaviest units into place with ease!
